Tool speed: 6000 rpm (for cutters in HSS)

Clamp: Tilting with interchangeable plates

Standard Tools:

- Cutters FE01 (Dimple keys) and FE04 (Laser keys) in HSS
- Tracer points TE01 (Dimple keys) and TE04 (Laser keys)

Movements: On three axes by ball guides

Runs: X Axis: 40 mm, Y Axis: 50 mm, Vertical Z Axis: 45 mm

Dimensions: Width: 250 mm - 9.8"
Depth: 370 mm - 14.6"
Height: 370 mm - 14.6"

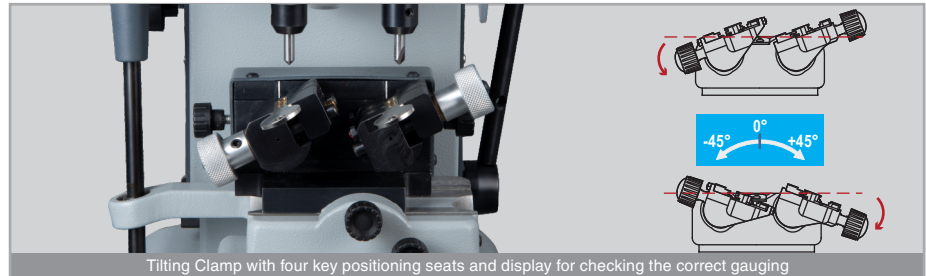

Weight: 24 kg

Twister II Pro

Reliable, cost-effective, easy and comfortable to use

Twister II Pro is a quality MKCM for duplicating Dimple keys (with Flat and Angled cuts), Laser keys, Tibbe keys and Flat keys with the help of optional adaptors and accessories.

The unique features of Twister II Pro is its Tilting Clamps with four positions for accommodating different types of keys, Smooth Carriage Movement, a Powerful Motor & Efficient Design for ease of key duplication.

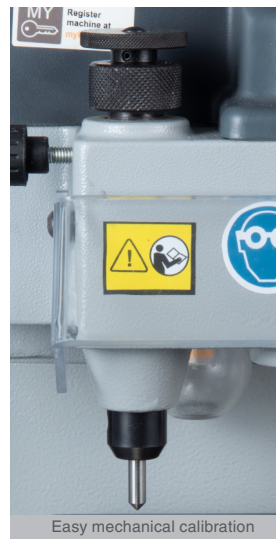

Tilting Clamp with four key positioning seats and display for checking the correct gauging

Optimized tilting clamps for a wide range of keys

Twister II Pro features tilting clamps (0°/+45°) with four different positions for accurate duplication of Dimple keys with Flat & Angled cuts, Laser keys, Tibbe keys*, Flat / Edge keys* and Mercedes keys* using optional adaptors & accessories.

Spring loaded tracer point for accurate results

The spring loaded tracer point, activated by rotating the locking nut, grants proper

Easy mechanical calibration

centering of cuts on the keys, ensures a perfect depth alignment and allows for accurate duplication of worn out keys.

Easy to maintain

Twister II Pro features an optimized and economical repair solution for substituting worn out clamps thanks to the replaceable jaws of the clamp on the cutter side of the machine.

Energy-saving Illumination

The working area of the machine is illuminated by an integrated LED light, an energy-efficient and healthier solution which results in cost savings, avoids flickering and limits eyestrain even after prolonged use.

Compact and Solid

Designed to have a small footprint, Twister II Pro

compact, light and built to last.

Safe for the user

The wide transparent shield protects the operator from moving parts, metal swarf and chips while cutting. The thermal magnetic safety switch turns the machine off automatically in case of power failures, safeguarding the machine and the user.

Optional accessories

A specific range of optional accessories is available to expand the machine capabilities.

Powerful LED Light

Interchangeable Clamps
